

Infertility Diagnosis and Treatment

Reimbursement Policy ID: RPC.0041.01CH

Recent review date: 04/2026

Next review date: 06/2027

Keystone First – CHIP (Children's Health Insurance Program) reimbursement policies and their resulting edits are based on guidelines from established industry sources, such as the Centers for Medicare and Medicaid Services (CMS), the American Medical Association (AMA), state and federal regulatory agencies, and medical specialty professional societies. Reimbursement policies are intended as a general reference and do not constitute a contract or other guarantee of payment. Keystone First – CHIP may use reasonable discretion in interpreting and applying its policies to services provided in a particular case and may modify its policies at any time.

In making claim payment determinations, the health plan also uses coding terminology and methodologies based on accepted industry standards, including Current Procedural Terminology (CPT); the Healthcare Common Procedure Coding System (HCPCS); and the International Classification of Diseases, 10th Revision, Clinical Modification (ICD-10-CM), and other relevant sources. Other factors that may affect payment include medical record documentation, legislative or regulatory mandates, a provider's contract, a member's eligibility in receiving covered services, submission of clean claims, and other health plan policies, and other relevant factors. These factors may supplement, modify, or in some cases supersede reimbursement policies.

This reimbursement policy applies to all health care services billed on a CMS-1500 form or its electronic equivalent, or when billed on a UB-04 form or its electronic equivalent.

To the extent that any procedure and/or diagnosis codes are specified in this policy, such inclusion is provided for reference purposes only, may not be all inclusive, and is not intended to serve as billing instructions. Listing of a code in this policy does not imply that the service described by the code is a covered or non-covered health service. Benefit coverage for health services is determined by federal, state, or contractual requirements and applicable laws that may require coverage for a specific service. The inclusion of a code does not imply any right to reimbursement or guarantee claim payment. Other Policies and Guidelines may apply.

Policy Overview

This policy addresses reimbursement for diagnosis and treatment of infertility. Keystone First – CHIP considers the use of any diagnostic service for evaluation of male or female infertility to be non-reimbursable. Other services may be reimbursable except when related to infertility, including but not limited to, hysterosalpingography, vasography, vesiculography, epididymography, and thyroid panel.

Keystone First – CHIP considers the use of any medical procedure or pharmaceutical product related to treating infertility, including assisted reproductive technology, to be non-reimbursable.

Exceptions

The use of cryopreservation fertility preservation for patients with cancer is reimbursable.

Reimbursement Guidelines

There are no infertility services reimbursable by Keystone First – CHIP.

Definitions

Infertility

For this policy, infertility is defined as failure to establish a clinical pregnancy after 12 months of regular, unprotected sexual intercourse with the same partner or due to an impairment of a person's capacity to reproduce either as an individual or with their partner.
